Company Profile

“Empowering
vaccine
biomanufacturing in
Africa and beyond “

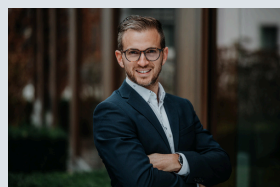

Our History

INOVATECH was founded with a unique mission to fully support and empower vaccine biopharmaceuticals across Africa and beyond. We offer comprehensive technical consulting services, including facility setup, bioprocess development and process optimization as well as quality and biosafety compliance at every stage of the biomanufacturing process.

With a decade of international experience in the vaccine biopharmaceutical industry in Europe, USA and Africa, our mission is to elevate the productivity and enhance the quality of vaccine manufacturing, empowering local production capabilities.

We have a proven track record of enhancing manufacturing capabilities and ensuring high standards of quality and biosafety. We are dedicated to fostering innovation and sustainability in local biopharmaceutical industries contributing to the advancement of healthcare in Africa and beyond.

JULIEN DELAUNAY - FOUNDER OF INOVATECH

Our Mission and Vision

Our mission is to empower vaccine companies by providing expert consulting services that enhance vaccine development, manufacturing and regulatory compliance.

We are dedicated to delivering strategic insights, innovative solutions, and comprehensive support to optimize our client success.

Our vision is to be the leading consulting partner in the vaccine industry, known for our expertise, integrity and commitment to excellence. We aim to drive industry progress by helping clients navigate complex challenges and achieve their strategic goals.

Our Values

Integrity: we uphold the highest standard of honesty and transparency in all our interactions, ensuring trust and ethical conducts

Excellence: we are committed to delivering outstanding results through continuous improvement, innovation and rigorous quality assurance

Collaboration: We believe in the power of teamwork and actively partner with clients and stakeholders to achieve shared goals and drive mutual success
